

Product: All corrugated paper

Date: 1/1/2025

The Forest Stewardship Council mission is to promote environmentally sound, socially beneficial and economically prosperous management of the world's forests.

FSC certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits.

As a company that does not own forestland, Bocks Board Packaging takes steps to assure our customers and consumers that we are responsibly sourcing from sustainable mills for our corrugated paper operations. **The mills that we purchase from are certified in accordance with the requirements of the Forest Stewardship Council using the FSC Chain of Custody standard.**

Our certified FSC suppliers ensure to BBP the following:

- The forest-based materials used in part, or all of your production are FSC -certified. This includes reclaimed materials.
- FSC-certified material is identified and tracked during the manufacturing and distribution processes.
- All documents and records relating to FSC- certified product production, purchase, and sales are kept.

Meet FSC's core labor requirements, including:

- no child or forced labor.
- no discrimination in employment and occupation.
- freedom of association and the right to collective bargaining.
